# New Zealand's outlook is lifting

- New Zealand economy is showing strong signs of growth and positivity – ahead of many OECD nations.
- The NZ economy is gaining momentum, with post-earthquake reconstruction, business investment and household spending gathering pace.
- Christchurch earthquake reconstruction work is underpinning growth in the national economy. Equivalent to about \$40bn in 2013 dollars – spread across residential (\$20bn), commercial and social assets (\$15bn) and infrastructure (\$5bn).
- The NZX 50 has performed strongly in the last year with 30.6% growth.

# Auckland is important for NZ's growth

Auckland is New Zealand's centre for commercial, industrial, residential and migration growth.

Auckland is one of the most culturally diverse cities in the world – almost 40% of the people living in Auckland were born overseas.

Auckland Airport is contributing to this growth:

- Auckland Airport impact on national GDP estimated at \$18.9bn in 2006, and is expected to grow to between \$30.2bn - \$44.1bn by 2031 (14% to 19% of the total NZ GDP).

*Source: Market Economics*

- Auckland Airport currently has about 300 employees – with 22,000 employees in the Airport corridor. This is expected to increase to between 29,000 and 38,000 by 2031.

*Source: Market Economics*

- Auckland Airport's broad mix of purpose of travel (Holiday, Visit Friends/Relatives, Business, Education) benefit from the diverse population base.

# Auckland Airport is a quality asset . . .

Auckland Airport provides a fantastic investment opportunity to participate in this growth:

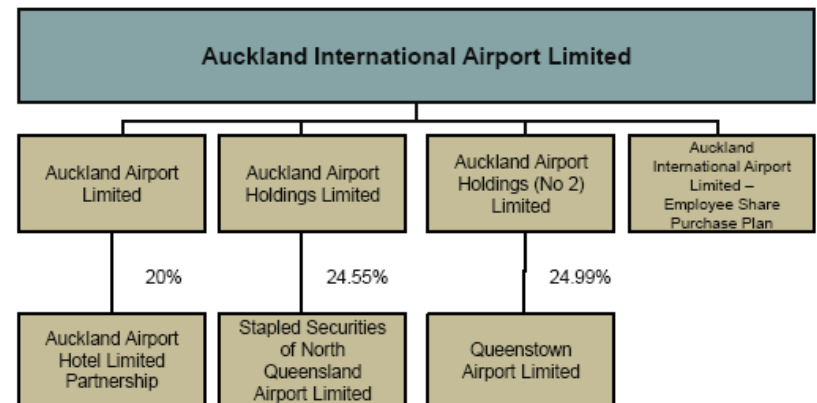

- 74% of New Zealand’s visitors arrive or depart from Auckland Airport, and over 90% of long haul visitor arrivals.
- Only commercial airport in New Zealand’s largest city – 46% of New Zealand’s total population within a two hour drive.
- No curfew, operating 24 hours a day.
- 1,500 hectares of freehold land – no constraint on long term growth.
- Ownership of four airports – Auckland, Queenstown (24.99%), Cairns and Mackay (24.55%).
- 20% ownership in 4+ star Novotel hotel joint venture situated next to the international terminal in Auckland.

# ... with a resilient passenger base and strong financial performance

- Highest proportion of international passengers (over 53%) of all Australasian airports and second highest number of international passengers – second only to Sydney.
- 18 international airlines connecting to 32 international destinations.
- Proven passenger growth resilience during times of stress in global economies and external negative events – total passenger growth of 4.7% CAGR since 2000.
- Providing passengers with a quality experience – voted “Best Airport in Australia/Pacific” in World Skytrax Airport Awards for the last five years (2009 – 2013).
- Strong financial performance with total shareholder returns of 23.9% in 2010/11, 14.1% in 2011/12 and 26.6% in 2012/13.
- World class EBITDA margin of between 74% and 75%.

# A transparent regulatory environment

- Dual-till regime with information disclosure regulation:
  - Aeronautical till: subject to disclosure regulation
  - Non-aeronautical till: open market competitive forces
- New information disclosure regime includes monitoring of service standards, asset availability, capital expenditure plans, efficiency of pricing and return on investment.
- Airport Authorities Act 1966 provides for and requires airports to consult and then set aeronautical charges at least every five years
- New aeronautical pricing path in place for 1 July 2012 to 30 June 2017.
- The Commerce Commission released a Final Report to the Ministers of Commerce and Transport on effectiveness of this new information disclosure regulation for Auckland Airport on 31 July 2013. In particular, the report found that:
  - Auckland Airport has operated transparently and constructively within the regulatory framework;
  - our charges represent a fair deal for both airlines and the travelling public; and
  - our charges provide an acceptable return on the significant investment we are making in essential long-term infrastructure.

# Strategy for our future

# We set ourselves ambitious targets

How we are tracking on the achievement of our previous longer-term aspirational goals:

ACHIEVED

ON-TRACK

NOT ACHIEVED

## Grow earnings above \$150m by FY13

Achieved, FY13 underlying earnings \$153.781m

## Remain #1 in Skytrax World Airports Awards for Australia/Pacific Region

Achieved, #1 Airport in the Australia/Pacific Region for five years in a row

## Double Chinese arrivals by FY16 (to 200,000 arrivals)

Achieved in FY13, 3 years early

## Increase Indian arrivals by 50% by FY14 (to 40,000 arrivals)

Likely to be off target, currently 30,215 arrivals

## Increase of 2 million international passengers by FY14 (to 8.4m passengers)

Will miss target, FY13 actual 7.3m

## Increase non-aeronautical revenue to greater than 56% of total revenue by FY14

55% in FY13, FY14 is a possibility

## Grow our property business to greater than \$50m by FY14

Likely to just miss target with the current rent roll of \$43.998m

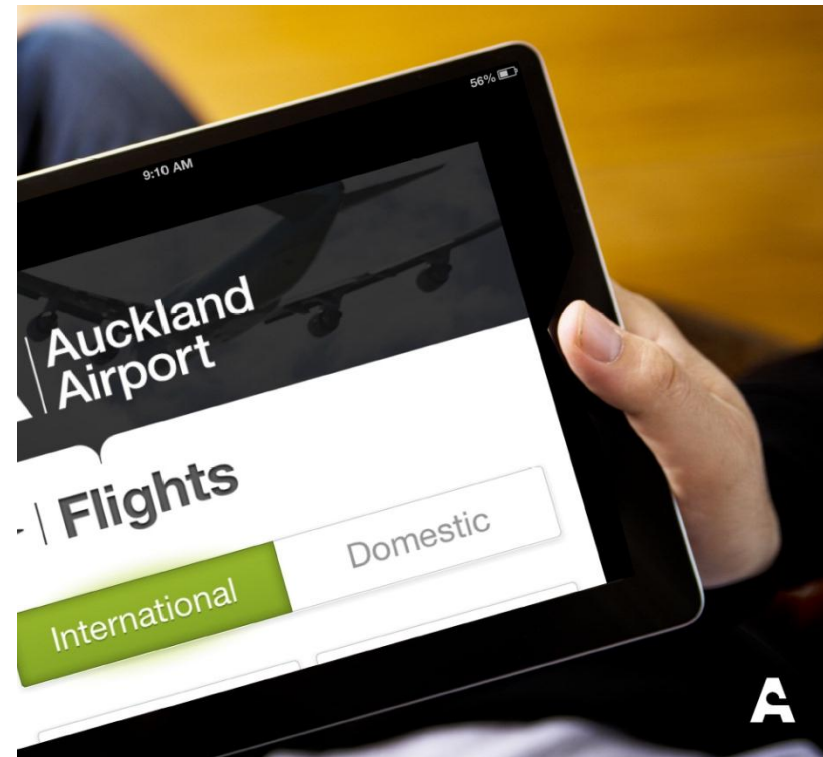

## Grow our retail and transport business revenues to greater than \$170m by FY13

Achieved, FY13 retail and transport revenue \$173.749m

# We have maintained growth in FY2013

- ✓ Delivered positive FY13 financial results
- ✓ Maintained growth momentum in the business
- ✓ Built strong relationships with tourism industry and customers
- ✓ Ensured the regulatory review of our aeronautical pricing decision reflected our balanced and fair pricing approach
- ✓ Prepared, protected and locked-in our long-term future through a disciplined masterplan process
- ✓ Reset strategy and leadership team to continue the growth path for FY14 to FY18.

# Grow Travel Markets: Aviation outlook strengthening

Recent announcements of growth at Auckland support the view that the aviation market is strengthening:

- **Emirates** upgrade to A380 on Brisbane/Auckland from 2 Oct 2013;
- **Malaysian Airlines** increase from 6 services per week to 7 services from 24 November 2013 to 27 January 2014;
- **China Southern Airlines** increase services to Guangzhou from 7 to 10 weekly flights 4 December 2013 to 28 February 2014 and the use of the Boeing 787 aircraft from October 2013 - the first route to Auckland to use this aircraft;
- **China Airlines** increase capacity by 30% on its Taipei-Brisbane-Auckland route from 28 November 2013 to 28 February 2014;
- **Qantas** new seasonal service between Auckland and Perth from 6 December 2013 to 1 February 2014; and
- **Air Tahiti Nui** increase of one service per week from December 2013.

Early international passenger numbers in FY14 have been very strong with international passenger growth (excluding transits) to 25 August 2013 up 7.9%.

# Grow Travel Markets: Lifting industry ambition

- NZ has an opportunity to capture a larger share of the fast growing Asia-Pacific aviation market.
- Aligning industry on opportunities is a key part of our “Ambition 2020: High Opportunity Target”.
- We are working with Tourism Industry Association, Government and other industry stakeholders to reset New Zealand’s tourism ambitions and guide how the country can grow tourism faster.
- Launched initiatives to focus on Asian growth markets such as China and Indonesia:
  - Hosted industry “Asia Summit” in April 2013
  - Hosted the China Southern ‘mega-famil’ for 250 travel agents
  - Farah Quinn campaign and visit to NZ
  - “Luxury NZ” and “NZ Journeys” websites launched – for China and Indonesia

# Grow Travel Markets: China Plan

Our strategic review identified that while the China market was growing significantly there are issues with the value proposition for industry participants (airlines, hotels, tourism operators).

However, at Auckland Airport, Chinese retail spend on departures is up to 2 – 2.5 times the average passenger spend.

To create opportunities for further growth we have implemented a number of initiatives:

- Worked with Immigration NZ to remove barriers for free independent traveller visas from China
- Influenced industry change for products suitable for free independent travel to New Zealand
- Invested alongside Sina Weibo on social media platforms to promote travel to New Zealand

# Strengthening our consumer business: Retail

- International terminal development has boosted retail revenue in all areas:
  - Duty Free (arrivals and departures)
  - Food and Beverage
  - Specialty stores
- New Zealand has one of the largest duty free allowance in the world.
- Our international retail passenger spend rate growth flattened in FY13 as tobacco related sales fell.
- However, excluding tobacco sales grew 1.6% in FY13.
- We see strong signs of continued growth in many underlying segments and categories.
- We are seeking to lift penetration rates, build incremental retail space, extend product ranges and utilise online channels.

# Strengthening our consumer business: Hotels

- Auckland Airport has 100% ownership of the Ibis Budget 2+ star hotel and 20% ownership in 4+ star Novotel hotel joint venture situated next to the international terminal in Auckland.
- Occupancy growing in FY13:
  - Novotel 83.2%, up from 82.0% in FY12
  - Ibis Budget 83.6%, up from 60.2% in FY12
- Growing profitability at Novotel – Auckland Airport's share of underlying profit was \$1.014 million in FY13, an increase of 20.7% on FY12.
- In planning stages to expand the Ibis Budget hotel – from 125 rooms to 198 rooms, an investment of \$8 million.
- Recent strong performance of these two assets demonstrates the potential for future opportunities in this sector.

Car park product offering at Auckland Airport		
International Terminal	Domestic Terminal	Park & Ride
2,974 public parking bays	2,705 public bays	650 parking bays
In addition, there are 2,513 staff car parks across domestic and international terminals which can be leveraged for customer parking at peak times.		

- Over 8,800 car park spaces across Domestic, International and Park & Ride facilities.
- Car park revenue increased 10.2% to \$40.370m in FY13.
- Domestic car parking utilisation increased due to passenger growth and occupancy levels.
- In May 2013, we added 350 car parks for the travelling public in the domestic terminal.
- In FY14, we will look to build on these opportunities:
  - Continue yield management, pricing, product refinement and improved customer way finding to lift productivity;
  - Make 500 current car parks available to the travelling public at the international terminal; and
  - Incrementally add new space

# Be fast, efficient & effective: Collaboration

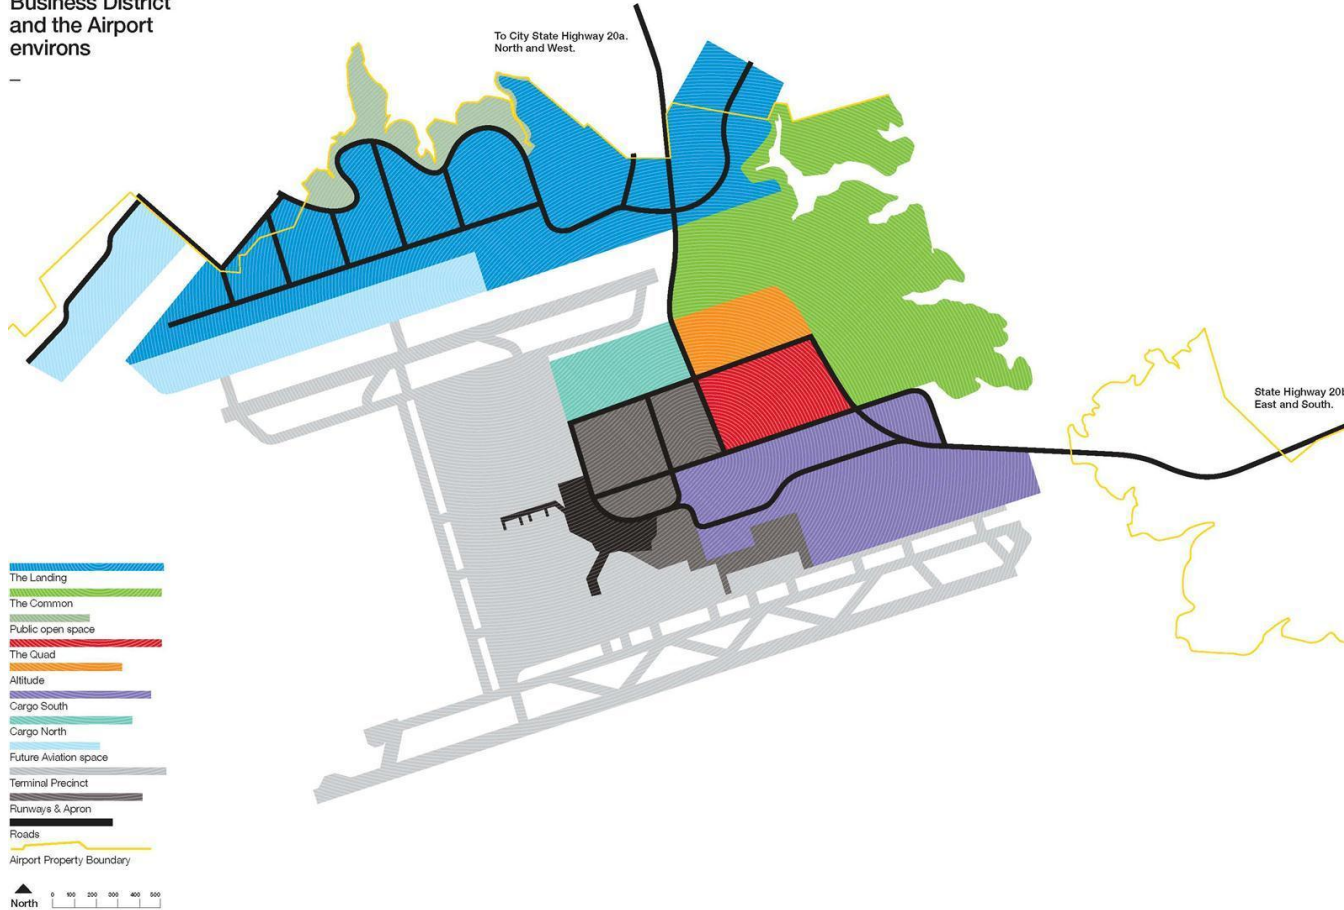

- Successfully managing airport operations requires pro-active collaboration, data sharing and real-time information.
- We are investing in systems to leverage more from collaboration with Airport Operating Systems (AOS) upgrades and passenger tracking tools.
- We are carefully managing our capital programme to make the most of our existing infrastructure.
- We are monitoring cost drivers throughout the business to improve our EBITDA margin.

# Invest for future growth: Building more rent roll

- The Auckland property market is recovering after a subdued 5 years and we are starting to see more active enquiry and demand.
- We are striving to change the perception of Auckland Airport as a location to strengthen the workforce and build non-travel footfall:
  - Marketing 'The District' at Auckland Airport to create property development momentum.
  - Moving from a collection of projects and investments to a place and community.
  - Creating a 'place-based' strategy to create New Zealand's greatest business location.

# Invest for future growth: Masterplanning

- Refurbishment of the current domestic terminal is underway to provide improved gate access, baggage collection, faster security screening, a new regional lounge and two new air bridges.
- Our long term future requires planning across the whole airport system. We are nearing completion of a major masterplan review with international experts.
- A strong airport masterplan is essential for our long-term future, so we are investing appropriate time and resources to have a robust and clear development pathway.

## FY2013 Financial Results

# Positive FY13 outcomes

Reported net profit after tax – up 25.1%

**\$177.967m**

Underlying profit – up 10.6%

**\$153.781m**

International passengers\* – up 1.7%

**7.317m**

Total FY13 Dividends – up 14.3%

**12.0c** per share

Positive outcomes achieved, notwithstanding some challenges to the growth momentum:

- Lapping the RWC period;
- Loss of Qantas to Los Angeles and Aerolineas Argentinas to Buenos Aires services before the year commenced;
- Australian duty free tobacco reduced;
- CEO transition

#### Notes:

Adjustments between reported earnings and underlying earnings in the 2013 and 2012 financial years include:

- We have reversed out the impact of revaluations of investment property in 2013 and 2012. An investor should monitor changes in investment property over time as a measure of growing value. However, a change in one particular year can be too short for measuring success. Changes between years can be volatile and will consequently impact comparisons. Finally, the revaluation is unrealised and, therefore, is not considered when determining dividends in accordance with the dividend policy.
- The group recognises gains/(losses) in the income statement arising from valuation movements in interest rate derivatives which are not hedge accounted. These gains/(losses), like investment property, are unrealised and will reverse out over the lives of the derivatives.
- To be consistent we have adjusted the revaluations of investment property and financial derivatives that are contained within the share of profit of associates in 2013 and 2012.
- We also allow for the taxation impacts of the above adjustments in both the 2013 and 2012 financial years.

<b>Total passenger movements</b>	<b>14,516,215</b>	<b>14,006,122</b>	<b>3.6</b>

- Exceptional growth in Asian visitor arrivals, with China and Malaysia both recording 26.5% growth compared to 2012.
- China is now the second largest source of visitor arrivals after Australia.
- Domestic passenger growth of 8.4% fuelled by additional capacity from both Air New Zealand and Jetstar and a range of competitive airfares.

# Auckland's international passenger growth building

- After a flat first half with the comparative period including the 2011 Rugby World Cup, passenger growth rebounded in the second half (3.3% growth) to record positive annual growth of 1.7%.

# Aircraft movements and MCTOW

<b>Total MCTOW</b>	<b>5,929,368</b>	<b>5,901,611</b>	<b>0.5</b>

- International aircraft movements and MCTOW affected by the withdrawal of Qantas on Los Angeles and Aerolineas Argentinas on Buenos Aires.
- Declines were slightly offset by additional services by China Southern to Guangzhou and Hawaiian Airlines to Honolulu, and an aircraft mix change away from B747s and B767s towards B777s and A380s.
- Domestic aircraft movements were flat as Jetstar A320 increases were offset by Air New Zealand regional decreases.

Depreciation expense	62.053	64.483	(3.8)
Interest expense	66.689	68.958	(3.3)

- Staff costs increased in the year due to long-term incentive bonus accruals based on strong share performance and costs associated with CEO recruitment.
- Increase in utility pricing, marine rescue maintenance, technology investments, car parking volumes and Emperor Lounge activity are the main drivers of airport operation expense growth.
- Tactical marketing promotions in aeronautical, car parking, retail, property and corporate contribute to 15.8% increase. Benefits are evident in recent aeronautical route announcements, leasing of speculative buildings, increased car park revenue and the impact of tobacco changes minimised.
- Extended useful life of the domestic terminal lowered depreciation and lower market interest rates reduced interest costs.

International passengers (including transits) – Cairns	666,707	672,110	(0.8)

- Cairns international passengers were stable with increases on routes to China, Japan and Papua New Guinea, offset by some decreases in services to New Zealand and Singapore.
- Revenue was boosted by strong retail performance with 14.1% growth in 2013 due to PSR growth and improved retail offering at Cairns terminals.
- NPAT growth primarily due to lower depreciation and interest costs.
- Auckland Airport received a total of AU\$10.801 million in dividends from its investment in NQA in 2013 (AU\$10.311 million in 2012).

- Additional services on domestic and international routes by Air New Zealand and Jetstar have increased capacity and fuelled growth.
- Financial performance was strong across aeronautical, property and retail sectors.
- Net profit after tax was impacted by higher depreciation and interest costs due to increased capital expenditure on the domestic terminal.
- Auckland Airport received a dividend from its investment in Queenstown Airport of \$0.896 million in 2013, compared to \$1.072 million in 2012.

# Balance Sheet remains in great shape

Percentage of fixed borrowing (as at 30 June)	66.3%	66.3%	0.0

- Interest expense in the year was \$66.689 million, down \$2.269 million (3.3%), driven by lower interest cost and higher capitalised interest.
- Auckland Airport issued a 7 year New Zealand bond in December 2012 at 4.73%.
- Credit rating is A- positive outlook.

Note: As the commercial paper is supported by the bank facilities the debt maturity profile graph as at 30 June 2013 includes the commercial paper in the one to two year and two to three year brackets, matching the maturities of the supporting bank facilities.

# Faster, Higher, Stronger: The outlook for 2014

- Despite challenges in some source markets from slowing growth, we see the aviation market solidifying recent gains and we are therefore optimistic about the 2014 financial year.
- We expect 2014 net profit after tax (excluding any fair value changes and other one-off items) to be between \$160 million and \$170 million.
- As always, this guidance is subject to any adverse events, one-off items, non-cash fair value adjustments, deterioration in global market conditions or other unforeseeable circumstances.
- We expect 2014 capital expenditure to be between \$120 million and \$130 million (excluding any new terminal development design and development and yet-to-be completed property development).
