

June 2012 Monthly traffic update

7 million +

Auckland Airport processed more than 7 million international passengers (excluding transit passengers) for the first time in a financial year in the year ended 30 June 2012. Total international passenger numbers (excluding transits) were up 5.4% on the prior financial year. Key growth areas were increases in arrivals from passengers resident in China and Australia and an increase in overseas trips by New Zealand residents.

20.3%

Visitor arrivals from Australia grew by 20.3% in June 2012 versus June 2011. This compares with the June 2011 decrease of 4.5% which was caused by flight cancellations due to the Chilean Ash Cloud. Visitor arrivals from Australia have increased in the year ending June 2012 by 66,098 visitors which represents the largest increase in visitors from a single country.

11.0%

Total international passenger volumes (excluding transit passengers) at Auckland Airport increased by 11.0% versus June 2011. The year-on-year increase is exaggerated due to the June 2011 passenger movements being significantly impacted by cancellations due to the Chilean ash cloud, particularly flights to/from Australia. The June 2012 passenger volume was 11.5% higher than June 2010.

7.2%

More overseas visitors are arriving at Auckland Airport than ever before. Overseas visitor arrivals for the year ending June 2012 grew 7.2% on the previous year. The largest visitor increases came from Australia (up 66,098), China (up 40,886) and France (up 12,641). Contributing factors to the overseas visitor growth in the last 12 months include the Rugby World Cup, increased services from China, competitive trans-Tasman airfares and the strength of the Australian dollar.
