

## November 2016 Monthly traffic update

**12.9%**

Auckland Airport's international passengers (excluding transits) increased by 12.9% to 798,046 in November 2016, compared with November 2015. Strong growth was achieved across all regions, with the Americas routes (up 41.3%) and Asia/Middle East (up 27.1%) seeing the biggest growth this November, driven by new seat capacity.

**68%**

Auckland Airport's transit passengers increased by 68% to 56,322 in November 2016, compared with November 2015. The growth is due to airlines adding new routes and flight times that optimise transfers for connecting Trans-Pacific passengers. The last 12 months has seen an increase of more than 150,000 transit passengers, as international travellers increasingly choose to "hub" through Auckland Airport on their way to other destinations, such as Santiago, Houston and Buenos Aires.

**18.1 million**

Auckland Airport's total passenger movements exceeded 18 million passengers in the 12 months to November 2016, up 1,907,091 passengers from the previous 12 month period. Both international and domestic performed well, up 10% and 12.5% respectively. Transit passengers also increased, up 30.7% to almost 650,000 passengers.

**Note: The 'Auckland Airport Top 10 arrivals by country of last residence' data table continues to be unavailable this month due to Statistics New Zealand delaying the publication of its monthly International Travel and Migration data.**
