

December 2020 Monthly traffic update and January 2021 preview

-70.3% Auckland Airport total passenger volumes decreased by 70.3% in December 2020 versus last year. International passengers (excl. transits) were down 97.3%, transit passengers were down 95.9% and domestic passengers were down by 32.2%.

Key Points:

- The decline in total passengers for December 2020 reflects the impact of the travel restrictions imposed by the New Zealand Government in response to COVID-19. The closure of the New Zealand border from 20 March 2020 to all but New Zealand citizens and permanent residents has had a significant impact on international services.
- Transit passenger numbers in December 2020 were 20.3% down on November 2020 reflecting the Chinese Government introducing new health testing requirements for COVID-19 from 7 November 2020 restricting international transit from New Zealand to China.
- Domestic passenger numbers in December 2020 were 7.5% up on November 2020 reflecting the increase in domestic capacity during the holiday period, mainly driven by Air New Zealand adding 16,000 seats onto its domestic network during the month.
