# Corporate Responsibility Company Policy

## **Purpose**

To ensure the Company operates and develops in a manner that finds the right balance between economic performance, environmental protection and social contribution, for the benefit of current, as well as, future generations.

As an expanding international airport, and business district, Auckland Airport has a positive impact on local, regional and national economies. Sound economic performance enables Auckland Airport to contribute to society through e.g. employment opportunities and sponsorship programmes.

Auckland Airport is also located on the very edge of the Manukau Harbour, a unique site that includes sensitive natural environments, important native species and a rich local heritage and culture.

Corporate responsibility, therefore, needs to be integrated into the management of our business. It is an essential element in creating and realising the long term vision for Auckland Airport.

# Auckland Airport will:

- Implement a pro-active corporate responsibility strategy for its business that meets stakeholder expectations;
- Produce comprehensive metrics, set specific, achievable sustainability goals and/or targets for the following material areas:
  - Economic contribution
  - Community and Iwi engagement
  - Smart design and construction
  - Customer experience
  - Work location of choice
  - Safety and security
  - Ground transport
  - Noise and emissions
  - Energy and carbon
  - Waste and water

Successful implementation of this policy will enhance Auckland Airport's reputation, customer loyalty and passenger experience. It will also play a crucial role in the delivery of long term value for our owners, as well as our other stakeholders.
